

Base Camp Coding Academy

Instructor

Updated 09/30/2018

The Position

Base Camp Coding Academy is seeking an additional full-time instructor to join our growing program in Water Valley. The Instructor will be responsible for supporting student growth and development in student technical training and career readiness, with a specific emphasis on creating innovative learning opportunities that teach students life-skills and professionalism in real-world settings.

Base Camp is setting new standards for alternative career preparation and our mission emphasizes transformative life opportunities for students through the attainment of gainful employment in the technology industry after graduation. We seek to complement our successes in technical skills growth with expanded development in communication skills and career readiness competencies to produce self-reliant graduates. The Instructor will report to the Director of Base Camp Coding Academy.

Candidates with experiences in career readiness, workforce development, writing education, non-profits, leadership coaching, or Title I schools are preferred.

The Candidate

- You are passionate about Mississippi students and are able to make strong, impactful relationships with a diverse student class.
- You set and maintain high expectations and will relentlessly pursue results.
- You are enthusiastic about students embracing a life changing opportunity by earning full-time employment after graduation.
- You are innovative and will be adaptive in problem solving to reach excellent student outcomes.

Job Responsibilities

- Design an arc of development for student career-readiness skills and monitor student progress.
- Provide daily classroom support to students in whole group, small group, and one-on-one settings.
- Create and execute differentiated learning experiences for both technical and career-readiness skills.
- Serve as lead-instructor as needed and provide relevant feedback on student work and conduct.

Qualifications and How to Apply

- Ability to manage a classroom of recent high school graduates.
- Communicate effectively, both orally and in writing.
- Establish and maintain effective, working relationships with students and staff.
- Strong organizational skills and attention to detail in digital communication.
- Capability to work independently and manage time effectively
- Passion for technology and desire to learn or extend foundational skills of computer programming.

Send your resume and a cover letter to careers@basecampcodingacademy.org.

About Base Camp

Located in Water Valley, Mississippi, Base Camp Coding Academy is a hands-on technical training program preparing graduates to start careers as software developers. The yearlong program enrolls students immediately after they graduate high school, with a new class starting in each June. Students attend the program full-time on 100% scholarship to learn the requisite technical and professional skills to be ready for employer interviews before graduation. 100% of Base Camp graduates enter into employment with starting salaries typically in excess of \$40,000.
